PROFESSIONAL EXPERIENCE

Wipro
Project Engineer
04/2022–present | Kolkata,India

- Created user-friendly and visually appealing interfaces based on design mockups and specifications for my **Wipro Dot project**.
- **Debug** issues and **optimize** code for better performance.
- Worked closely with backend developers and other team members to integrate frontend components with backend services, ensuring seamless functionality.
- Learn **Config Driven UI** during the project.
- Proficiently orchestrating **meetings** while meticulously managing **Excel sheets** as a tech-savvy professional.
- Always attentive in **SCRUM** calls and Soft skills based sessions.

Pepcoding
Full Stack Developer Trainee
06/2021–12/2021 | Remote, India

- Mastered over 200+ DSA problems on NADOS.io, wielding Dynamic Programming, Graph, and Tree algorithms.
- Learned Version Control System like Git and Github. - Contibuted in 2 HTML, CSS and JS based projects on Git.Engaged in an intensive coding practice.
- I devoted 8 hours a day to enhancing my coding skills, pushing my boundaries, and embracing new technologies. This immersive experience fueled my passion for coding excellence and equipped me to excel in complex development projects.

TECHSKILLS

Programming Languages – C, Java, Python, JavaScrpirt

Frontend Technologies – HTML5, CSS3, JavaScript, React.js, Redux, React Router, TailwindCSS, Chakra UI

Backend Technologies – NodeJS, ExpressJS

Database Management – MYSQL, MongoDB

Other – Adobe PremierPro, Photoshop, Filmora, Pixlr

SOFTSKILLS

- Problem-solving, Team Collaboration ,Time Management, Communication, Presentation Skills

EDUCATION

Bachelor of Technology in Electrical Engineering -
Haldia Institute of Technology, Haldia,W.B
08/2018 – 08/2022
Higher Secondary Education -
Himalayan Residential School, Patna
05/2017 – 05/2018

PROJECTS

FoodApp - FoodMenu
FoodMenu is a web application that allow users to search for restaurants and browse through real-time restaurant information.
Features:

- Utilization of Swiggy's live API data to fetch real-time restaurant info (By using **CORS**)
- **Dynamic search bar**
- **Infinite scrolling**
- **Conditional rendering** and caching strategies for enhanced user experience
- Backend server developed using **Node.js** and **Express.js** to handle API requests and interact with the Swiggy API
- Shopping cart feature implemented using **Redux Toolkit**
- **ShimmerUI**, **lazyloading**, **dynamic routing** for enhanced performance and seamless navigation

TechStack: ReactJs| Redux Toolkit | React Router | Swiggy API | Node Js | Express.js | Tailwind CSS

Netflix-GPT
Netflix GPT, a Netflix clone that provides users with a familiar interface to browse movies. The application is integrated with TMDB to fetch movie details and with Firebase for authentication.
Features:
Login/Sign Up – Sign In/Sign up Form, redirect to browse Page, Browse (after authentication)- Header, Main Movie – Tailer in background, Title and Descrption, NetflixGPT – Search bar, Movie suggestions

TechStack: ReactJS | TMDB | Firebase | OpenAI

POSITIONOFRESPONSIBILITY

FooorLifeCampaign
Prasadam Organiser (Food for Life Campaign)
Distributedfoodto100+flood-affectedfamiliesas a member of the Food for Life initiative. And maintaining more than 3 lakh amount per year income of the volunteers.

CERTIFICATIONS

- Google Cloud Training Qwiklabs - 2021
- AWS Practioner - 2022
- Namaste React by Akshay Saini - 2023
- Java full certification course (Udemy) - 2022
- Joy of computing using Python (NPTEL) - 2019
- Development soft skills and Personality (NPTEL) - 2018
